Our next big project will be prepping songs, skits, and costumes for our Christmas Concert.

The past month was all about getting ready for the Christmas Concert. Students worked very hard on memorizing lines and learning new songs. New for this year's concert was skits written by the students themselves, as well as some solos and duets in the musical section of the concert.

In the new year, we are planning a welcome back pancake breakfast for students on Monday, January 8th. In February, we are looking forward to doing a field trip together with Richland Colony to Roger's Hill. This has been a favorite destination for students in the past and our students are looking forward to sharing this day with friends from Ridgeland Colony.

As part of working towards student engagement, our middle years teacher has been working with students on designing themes and content for our school bulletin board. The theme for our winter board has been Gratitude. Students of all ages, as well as adults filled the board in less than two days with all the things we are grateful. We look forward to seeing what they come up with next.
