COMMUNITY CHRISTMAS TREE

Three years ago, we had a very sad looking Christmas Tree at the SPS office. We had no funds, no decorations, and no skill set, so we had to come together to decide how we were going to bring our tree to life. It was Angie, our former receptionist, who decided to have the children of Springfield make decorations and bring the spirit of Christmas to our tree. Thus, a tradition was born! We have kept every decoration since we started the, and will continue to use them year after year. Now you know the history of "Angie's Tree".

On behalf of the Springfield Police Service, we would like to thank every young person who took the time to make and help us decorate our Christmas Tree.
