## Springfield Sabres convoy for Ukrainian National Federation

By Tony Zerucha

While football season doesn't kick off for six months, the Springfield Sabres are already big winners in the community.

On March 9, the team delivered seven trucks full of kitchen items, small appliances, toys, clothes, bedding and cleaning supplies to the Ukrainian National Federation (UNF) in Win-

nipeg. The players organized a convoy into the storage area and helped unload a food shipment. They also met volunteers from across Ukraine and learned their stories.

The UNF expects another influx of Ukrainians to arrive before the end of March, adding to the more than 20,000 who have come over the past two years. These supplies

will help dozens of families settle in their new homes; they replenished dwindling stocks.

The players were split into teams and awarded points for items they collected. Head coach Tom Walls joked that they should have stopped at the weigh station on the ride into town to determine a winner; that was how much they collected.

Springfield Sabres football players delivered seven truckloads of kitchen items, small appliances, toys, clothes, bedding and cleaning supplies.

## Farmers Bonspiel
