

**Superintendent Report
June 18, 2024**

To date the Divisional plan for the Universally Accessible Nutrition Program has not been approved by the province. Although the funding amount is guaranteed, we are still awaiting approval on the delivery models identified by each of the individual schools. There were some parts of school plans that I was concerned may not be approved. However I reached out to the province who provided written confirmation these plan components would be approved (for example the installation of plug for new appliances). Other items in school plans were in the scope of provincial expectations so I am confident that all plans will be approved.

The Sunrise School Division Long Service and Retirement event was held on Tuesday, June 11th. Feedback from those in attendance was very positive. Thank you to all of those who played a role in making the evening a success, but specifically to Jennifer Baker, Sara Scott and Yvonne Brandt who handled most of the planning and logistics for the event.

The Division will host its first Divisional professional development day for all Sunrise School Division staff since the pandemic on October 18th. This fall over 900 employees will convene on the Brokenhead River Community Hall here in Beausjeour. Much of the planning for the event has already been completed and we are looking forward to a great day of learning together.

As we head into a well-deserved summer break, we should acknowledge and say thank you to all of our staff for the time, effort and commitment they have invested in our students and families over the past school year. We hope all our 10 month employees enjoy time with family and friends, and get the opportunity to rest and recharge after another very busy school year. We also hope our 12 month employees get the opportunity to take some holiday time over the next two months and enjoy the Manitoba summer!
