

# Brokenhead approves daycare sewer, water

By Tony Zerucha

The RM of Brokenhead is spending just over \$150,000 to connect the Tyndall daycare with sewer and water services.

The municipality hired Pretium Projects to complete site services work, lay 14 metres of sewer and water pipes, and install a fire hydrant from the municipal mainline to the property line. That work costs \$41,780 plus GST.

Cox Construction was retained to install 72 meters of sewer and water pipes, a 2,500-gallon septic tank and related equip-

ment from the building to the property line. That tab is \$115,402 plus GST.

"The water and sewer costs which were passed by council were to bring sewer and water to the daycare in Tyndall," RM of Brokenhead CAO Sheila Mowat said. "It was a part of the funding agreement; the municipality is responsible for bringing the services into the daycare from which we received \$4 million in government funding."

Both Pretium Projects and Cox Construction are Winnipeg-based companies. Council passed the motion in November.

# SCI chili cook off spicy

While it was getting chilly outside, inside Springfield Collegiate, it was nothing but chili on Dec. 4, as the school raised money for Christmas hampers in Springfield.

The school holds three luncheons each year, with all proceeds given to the hamper

fund. It's also a bit of friendly competition between school staff.

This year's gold medal winner is Natasha Kostenko. Nancy Champagne placed second, while Sevryn Wojcik finished in third place.
