

**School Carry Over Request
June 4, 2024
Board of Trustees Meeting**

Facility:

Name of School

Anola

Requested by:

Principal and/or assistant principal

Anthony James Stanley

Detailed description of expenditure for which a carryover is requested:

I am planning on having a math residency with Allan Stevenson next year. I will require approximately four thousand dollars to cover the substitute costs for this. All of any existing carryover will be used for the purpose of paying for substitutes. 5 days of subs at 4 subs per day.

Maximum allowable carry over without Board Approval (3% of Budget):

\$2005.71

Carry over request:

I am not exactly sure of the exact amount that will be left as field trips and sports trips are still happening and costs are being incurred. Again, any amount that I have left over the 2005.71 would be used for the math residency.

As of May 15, 2024 - \$4,765.00

Impact on student learning:

- 1) In order for the Anola School students to be kept current on mathematical processes, the residency is needed for the teachers.
- 2) Once the teachers have the most current information, it can be passed on (taught) to the students
- 3) This request has a direct impact on student learning.
