Word Work in the Kindergarten Classroom

2. One letter at a time, learners pull the strip out of the jacket and say the sound of the letter, blending the sounds together as they go.

3. Once all the letters have been blended to form a word, learners can check their answer by pulling the strip out all the way.

ABC Order
Write your words in ABC Order. Then write them in reverse ABC Order.

Write and Highlight
Write your words in a list. Highlight the vowels in one colour and the consonants in another colour. Count and total. How many vowels are there? How many consonants are there?

Words and Syllables
Say, then write your word. Place your hand under your chin and say your word again. How many times does your chin lower? That is the number of syllables your word has! Write your list word showing where the syllables are by putting a hyphen between the letters. For example, occupation (o-cu-pa-tion/4 syllables)
